

# BOAT MAINTENANCE LOG (MONTHLY TRACKER)

Simple upkeep record to stay ahead

Selfcampers.com — Practical Guides for the Modern Outdoor Lifestyle

This **Boat Maintenance Log** helps you keep a record of all the tasks you do to keep your boat in top condition. By carrying out these tasks, you can stay on top of any boat maintenance issues and make your boat last longer. You will also be able to identify any issues before they lead to bigger problems.

## Monthly Maritime Inspection Checklist

- **Hull and Deck:**  
*Check for cracks, blisters, or damage. Clean and wax as needed.*
- **Engine:**  
*Inspect fluid levels (oil, coolant, power steering). Check for leaks and corrosion.*
- **Electrical Systems:**  
*Examine wiring, connections, and batteries. Ensure all lights and electronics are functional.*
- **Plumbing:**  
*Inspect hoses, pumps, and fittings. Check for leaks and proper operation.*
- **Steering and Controls:**  
*Ensure smooth operation. Check cables and connections.*
- **Safety Equipment:**  
*Verify life jackets, flares, fire extinguishers, and first aid kit are in good condition and accessible.*
- **Navigation Systems:**  
*Test GPS, compass, and other navigation tools.*
- **Fuel System:**  
*Check fuel lines, tank, and filters. Look for leaks and contamination.*
- **Bilge:**  
*Inspect and clean bilge area. Ensure bilge pump is working correctly.*
- **Mooring Lines and Fenders:**  
*Check for wear and tear. Replace as needed.*

# Monthly Maintenance Record

Date	System/Component	Action Taken	Notes/Observations
